

CERTEK™
HEATING SOLUTIONS

SERVICE RIG

COMPLETE RIG HEATING PACKAGE

The CerteK Service Rig Heating Package, is a complete service that will help you save time, money and make your operation more comfortable and efficient.

HEAT WHERE THE SUN DON'T SHINE

CerteK provides heat to areas **no other heating company or steam service does**. We heat the wellhead, as well as any area where you feel extra heat will increase your productivity.

A warm hand, is a productive hand.

Our fully automatic units require no boiler hand or baby sitting. Simple start the unit, top up the fluids and let the unit do its job. We heat through any and all existing steam coils, and we can maintain all tanks and vessels at a constant temperature with no hand required to connect or disconnect hoses. Almost an **unlimited amount of heat trace** can be added to the system allowing you to wrap anything and everything you want.

TRUSTED AND PROVEN

CerteK's Service Rig heating Package is a proven and advanced replacement to the out-of-date steam industry. Using CerteK's hydronic heating method allows for constant heat input with significantly increases efficiency, while reducing costs. All of CerteK's heaters operate at atmospheric pressure, virtually eliminating the hazards associated with legacy steam heating and pressurized heating systems.

REDUCE COSTS

Fully automated design features enable all CerteK Heaters to significantly reduce the cost to heat fluids per BTU. Keep your hands on the rig and off of the heating equipment.

TRI-FUEL

Our units operate on natural gas, diesel, or propane, with the flick of a switch.

FEATURES AND BENEFITS

- 1 SAFE OPERATION.** CerteK's heaters are open to the atmosphere and run at zero pressure. No pressurized steam, so no boiler hand is required.
- 2 COST SAVINGS.** Our pricing is better than any we have heard of. We also get the job done in far less time than the competition. No boiler hand.
- 3 LOW FUEL USAGE.** We burn less fuel than any hot oiler for the same job. We can run off of Diesel, Propane or Natural Gas, with the flick of a switch.
- 4 STATE-OF-THE-ART.** Our heat source is contained and automatically cycles so you don't have to babysit anything. Satellites monitoring included.
- 5 MOBILE.** Move the entire setup using just a pickup truck, and move most accessories around site by hand.

PACKAGE INCLUDES

| CERTEK | | |
|-------------|--------------------|--|
| | Kodiak: | - 1.2mm btu heater |
| | Hurricane: | - Heat Wellhead - Heat Monkey-board - Heat Control Area |
